First tape release for Hinterzimmer Records as well as for Herpes Ö DeLuxe, coming in time to a short tour celebrating their 15th year of existence. Ember consists of two side long tracks (both around 18 minutes). Absolument Pas is a complex, multi-part composition and has already been released last year on a split-LP with German band S/T in an edition of 100 copies only. Fur Wahr is a slowly evolving psychedelic track they already recorded a while ago but never found an appropriate possibility to release it. The Ember cassette comes in a beautiful chipboard sleeve that was manufactured by the same company that does the Hinterzimmer Records CD packages.

Their instruments are partly analogue electronic gear, partly self-built or deconstructed tools. Herpes Ö DeLuxe are Von Wurstfinger, BlindDoc, Hess and Roger.Z. The latter is co-founder of Hinterzimmer Records, Hess is known for his turntablist/art project Strotter Inst.
