a playground for different noises and deep shit

this sections contains different styles of Noise, Neo-Kraut, Avantgarde, Electronic uncommercial somethings, some Doom, Drone and a lot of fun. Don't take it too serious, take it as it is :-)
I love it! This section will be build up a bit more in future.

Latest update: **April 12, 2012**

please notice: cover graded first. I'm really careful with values, cause I hate damaged things by myself. At least records without ratings are EX/EX or better. NEW means unplayed. In brakes are the country of pressing, the label and the year of release. Prices are in EURO
Please get in touch if you're interested in something. I'm not a dealer, this is my small hobby.
